What Educators are Saying

This was one of the best seminars I have ever been to. Susan was very dynamic and very "entertaining!" She held my attention, she educated me, and I truly feel I am leaving with tools and techniques I can use in my class! I will also be able to share these techniques with my fellow teachers.

*~Barbara King, Special Ed. Teacher 7-12
Wells Central School, Wells, NY*

Susan is passionate, clear and realistic about implementing strategies in the classroom. I feel armed with newfound inspiration.

*~Jen Douglas, 6th Gr. Teacher
Brookline, MA*

Too many conferences seem to forget that teachers want to leave with things they can do in a class the next day. In other words, too much theory. This seminar, however, kept the focus on teaching strategies. A really helpful conference. Thanks.

*~Gregory Donovan, English faculty
Minuteman Regional HS, Lexington, MA*

This is the FIRST seminar where the information given actually answers questions and concerns. This workshop gave practical, usable, wonderful ideas. I want my whole staff to hear this presentation.
